

VIDEO PRESENTATION

What are the requirements? How to send?

On November 11-14, 2020, meetings of the scientific sections of IPICSE2020 will be held in the [online format](#).

If you do not plan to make a presentation online (via the Zoom service), [you need to send a video presentation of your report to the organizing committee](#) in one of the following ways:

- As a [link to a file in the cloud storage](#) (upload the file to the cloud and send the link by email to science@mgsu.ru);
- As a [link to a video on the YouTube](#) (upload the video to YouTube and send the link by email to science@mgsu.ru);
- On a [USB flash drive](#) (only for MGSU employees: record the video and bring it on a USB flash drive to office 1705 of the MGSU administrative building).

If you know how to make video presentations, check out the following requirements:

- Resolution: no less than [800 x 600](#) pixels, no more than [1920 x 1080](#) pixels
- Media container: [.mp4/ .webm/ .mov](#)
- Duration: [5-10 minutes](#)
- There is sound
- Maximum file size: [300 Mb](#)

If you do not know how to make a video presentation, we have described two ways to do it in the form of step-by-step instructions.

VIDEO PRESENTATION

How to do? General requirements.

Use a good microphone and webcam. Try to speak clearly and pay attention to the sound level (not too quiet or too loud).

Do not forget about dress code: record the video presentation in whatever clothes you would use in case of a face-to-face presentation.

Position the webcam window in the corner of the screen so that it does not cover the presentation content.

OK

**NOT
OK**

VIDEO PRESENTATION

How to do? Way 1.

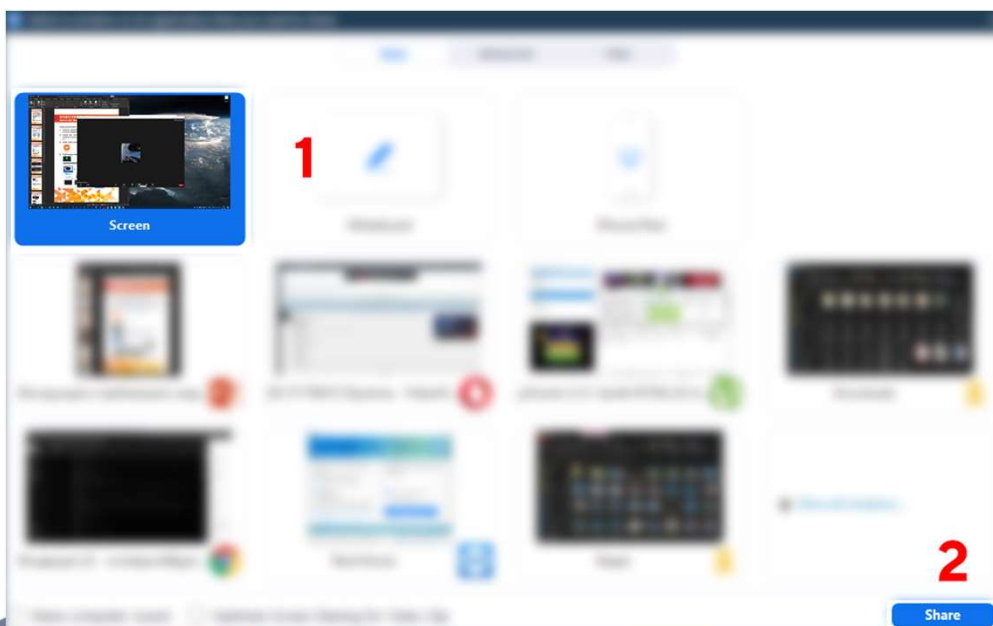

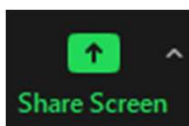

Video presentation can be recorded using Zoom.

1. Create a presentation of your speech and prepare it to run on your computer screen.
2. Install the Zoom app (<https://zoom.us/>) and open it. Create an account in the app (if you don't have one) or log in.
3. Start a new conference using the button:

New Meeting ▾

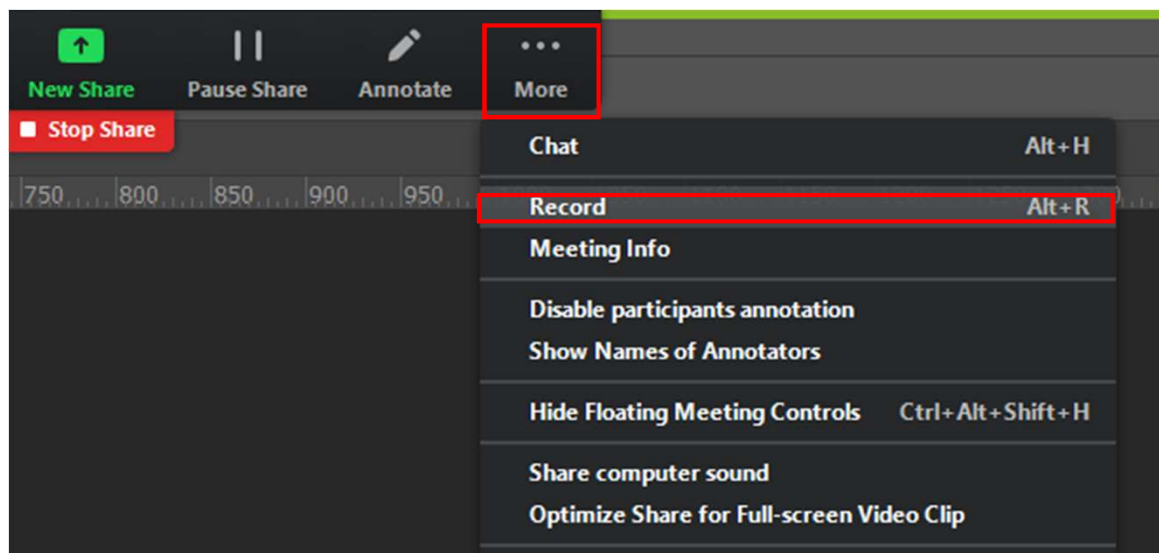

4. Start screen sharing:

VIDEO PRESENTATION

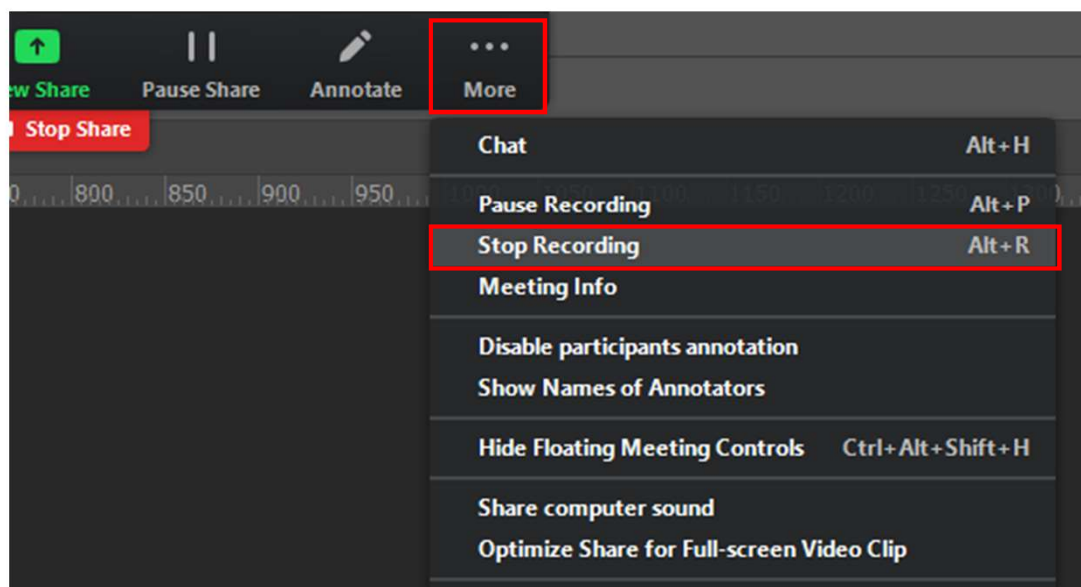

How to do? Way 1.

5. Start screen recording:

6. Start your presentation (in power point or similar program) and give a presentation.

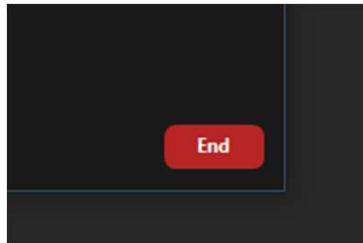

7. After finishing your presentation, turn off the recording:

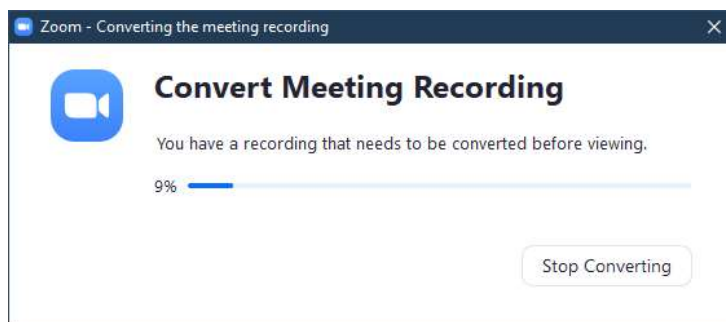

VIDEO PRESENTATION

How to do? Way 1.

5. End the conference in zoom:

6. Wait for the end of converting your recording.

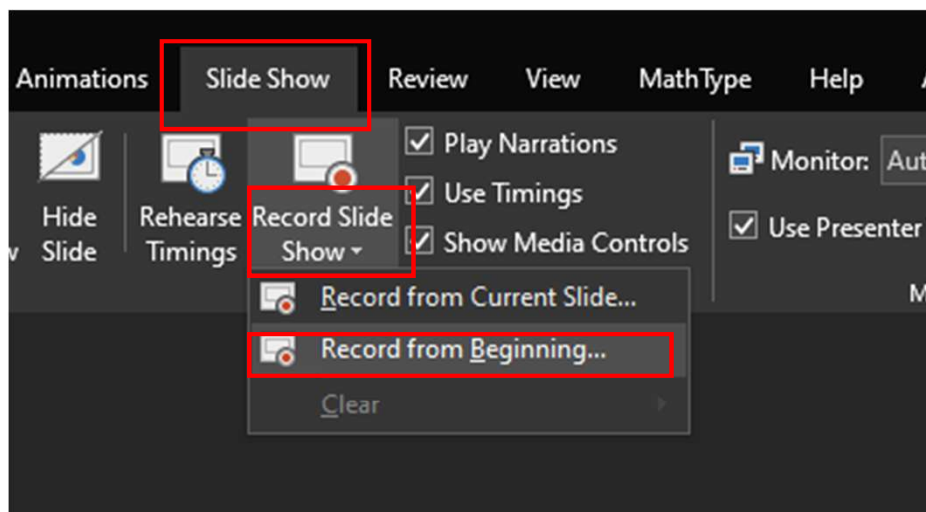

7. The result window will automatically open when the process is complete.
8. Make sure your video meets the requirements on page 1 of this guide.
9. Send the resulting file using one of the methods described on page 1 of this guide.

VIDEO PRESENTATION

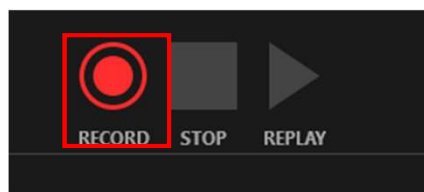

How to do? Way 2.

Video presentation can be recorded using PowerPoint.

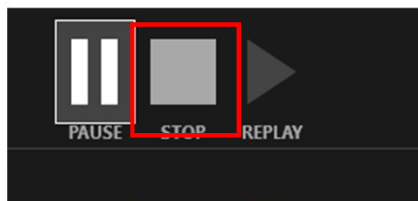

1. Create a presentation of your speech.
2. Press the "Slide Show" button - "Record Slide Show" - "Record from Beginning":

3. Press "Record":

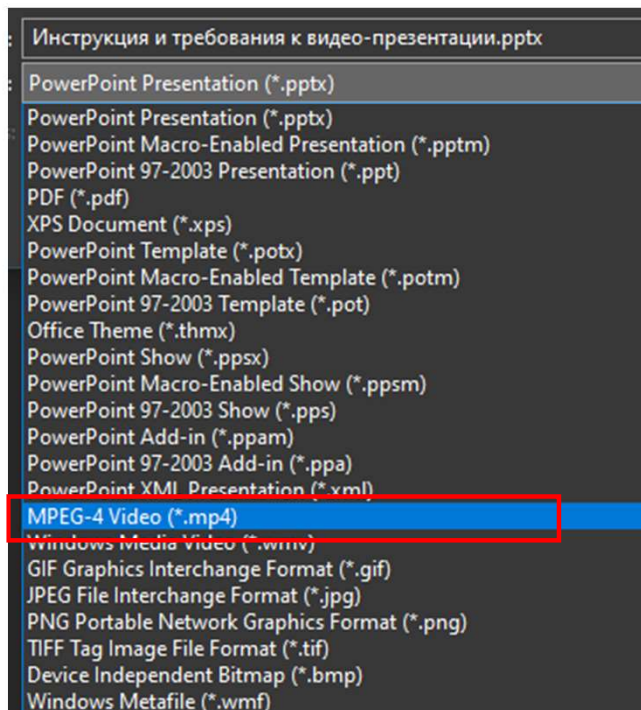

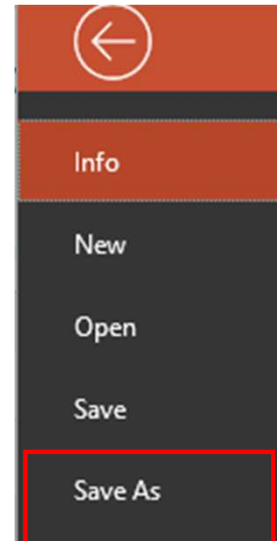

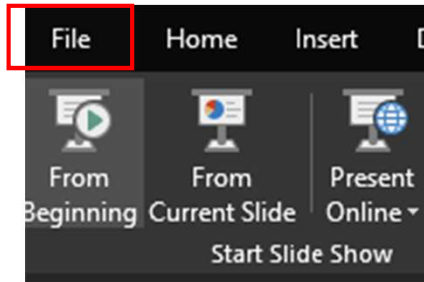

4. Make a presentation.
5. After finishing your presentation, turn off the recording:

VIDEO PRESENTATION

How to do? Way 2.

6. Save your presentation in video format:

7. Make sure your video meets the requirements on page 1 of this guide.
8. Send the resulting file using one of the methods described on page 1 of this guide.
